2. How to open a Buy/Sell Order at the current market price (Market Order)

A **Market Order** is a type of order where you can open a Buy or Sell Order immediately at the current market price.

Method 1	On Toolbars located on the top of the platform screen

STEP 1   Click **New Order** icon
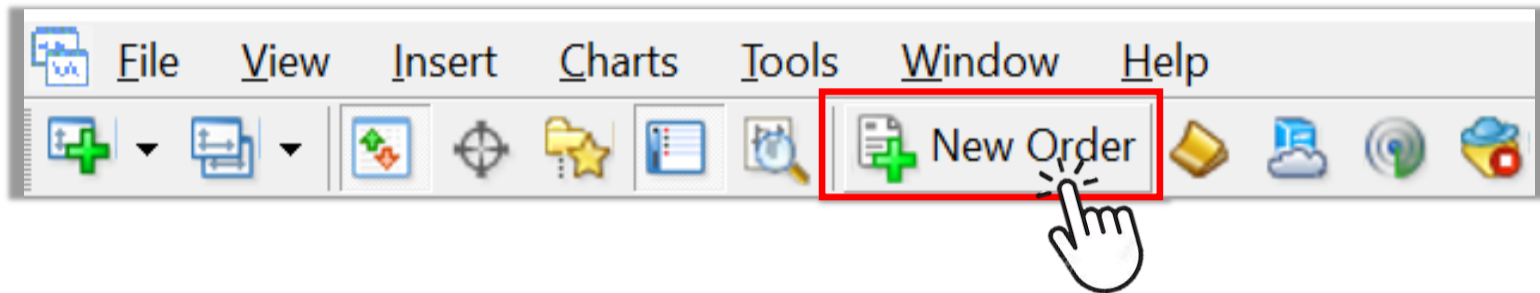

Note: If you don't see New Order icon on your screen, please follow the below instructions.
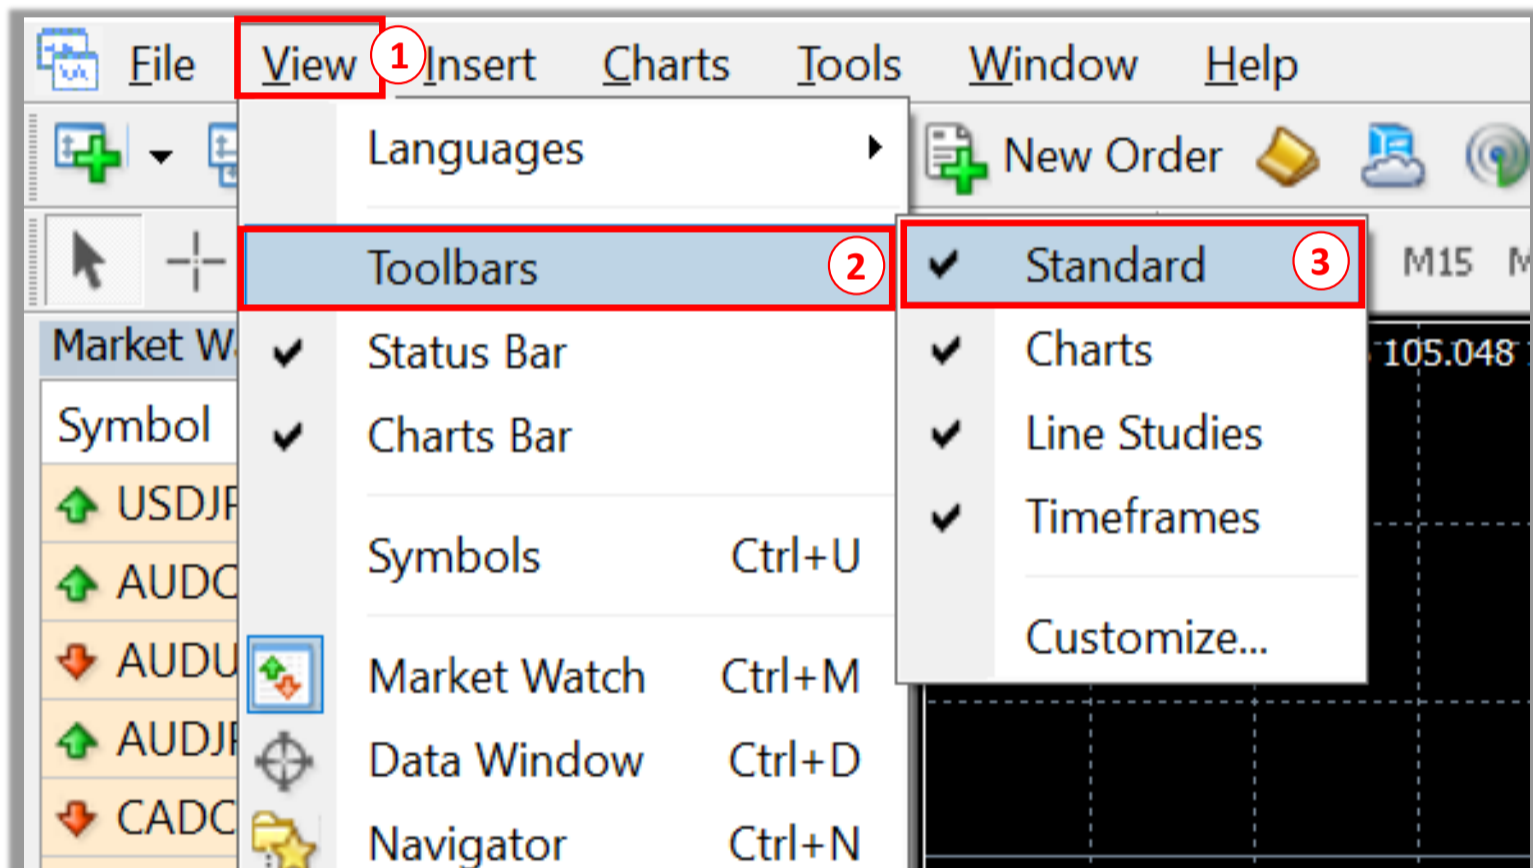

①   Click **View** on Menu bar

②   Click **Toolbars**

③   Click to put a checkmark (✓) in **Standard**

STEP 2   Set up your order
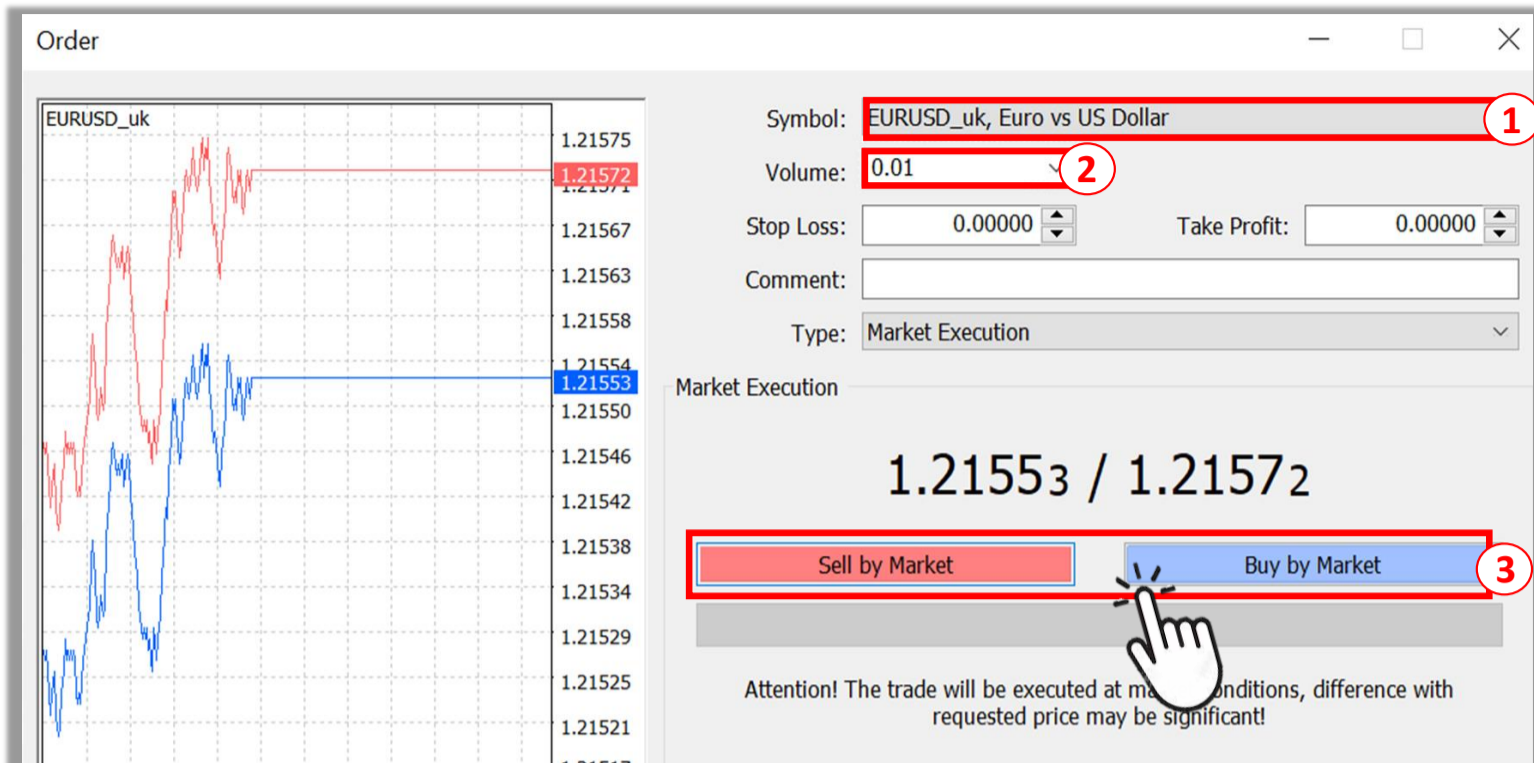

① Select the currency pair you would like to trade at **Symbol**

② Input the volume you would like to trade at **Volume** (Minimum: 0.01 lot)

③ Click **Sell by Market** if you would like to execute Sell Order with the current market price
Click **Buy by Market** if you would like to execute Buy Order with the current market price

STEP 3   Click **OK** to complete

After your order is opened successfully, your order will be shown above the account balance bar in Trade tab of the Terminal window with current market price.

Note: Terminal window is located at the bottom of the platform screen.
(Press Ctrl+T if you don't see Terminal window on your screen)

Method 2	On Menu bar located on the top of the platform screen

STEP 1   Click **Tools**
STEP 2   Click **New Order**

STEP 3   Set up your order (as same as Step 2-3 of Method 1)

3. How to open a Market Order in just one click (Set up One Click Trading)

**A Market Order** is a type of order where you can open a Buy or Sell Order immediately at current market rate. Setting up **One Click Trading** allows you to open a Buy or Sell Order fast in just one click so that you can get the price you want timely before the market rate changes again.
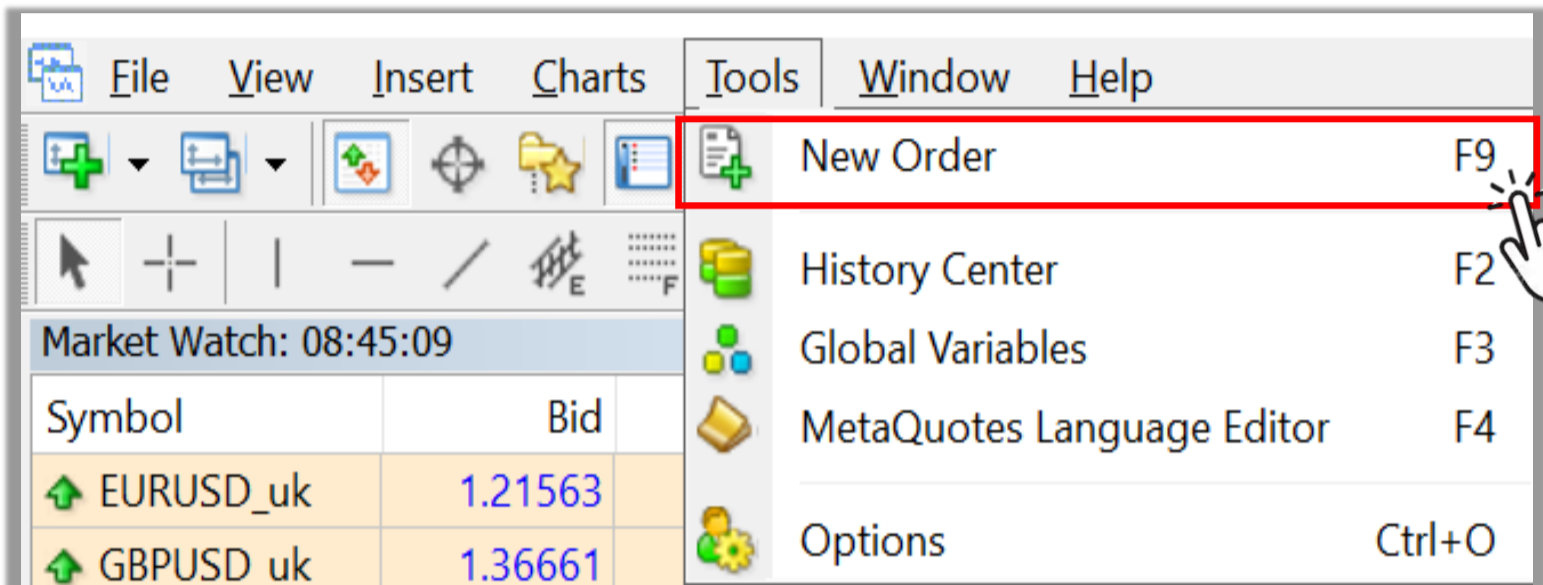

STEP 1   Click **Tools** on the Menu bar located on the top of the platform screen
STEP 2   Choose **Options**
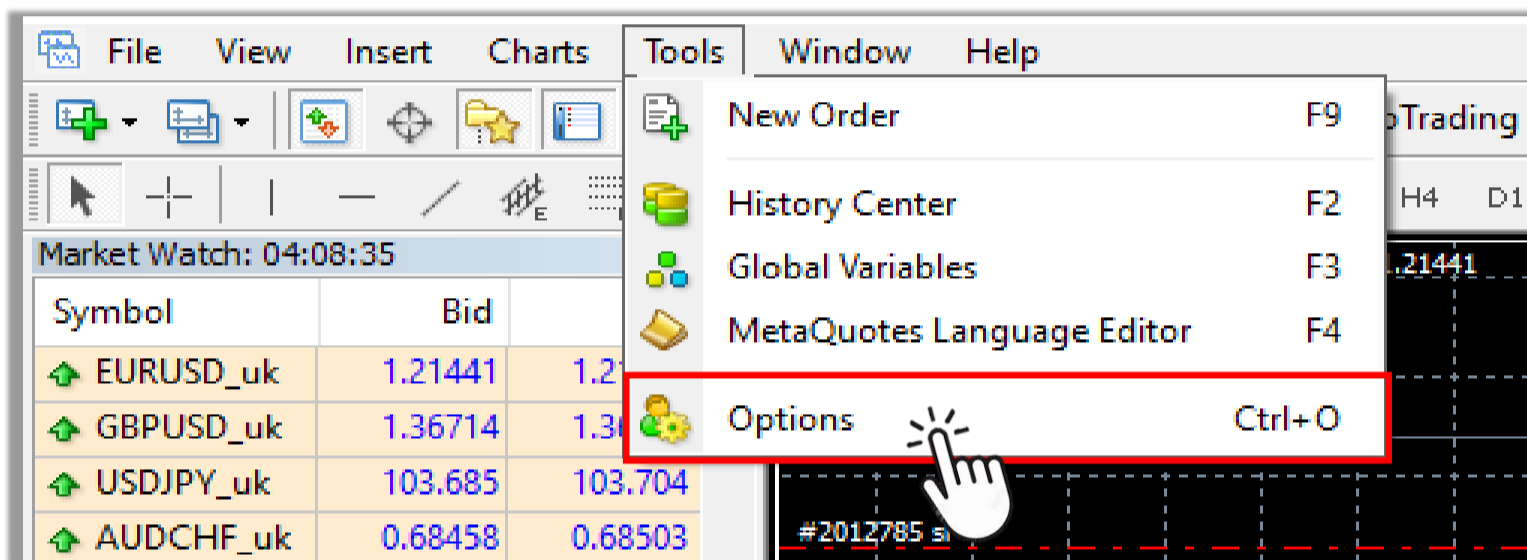

STEP 3   Set up **One Click Trading**

①   Choose **Trade** tab

②   Click on ☐ to put a checkmark (✔) in the box

STEP 4   Confirm Terms and Conditions

One-Click Trading   ✕

Disclaimer

You are about to activate One Click Trading mode. By clicking "I Accept these Terms and Conditions" below, you acknowledge that you have read and understood the following terms and conditions, and you agree to be bound hereby. Your current version of the terminal enables you to choose between the following modes for order submission. You agree that you will be bound by the procedures and conditions specified herein with respect to each such mode.

1. The Default mode for order submission is a two-step process: you first open a new order window, then you select an appropriate order type, its parameters, and confirm your order submission by clicking either Buy, Sell, Place, Modify or Close buttons depending on the particular order type selected and your trading intentions. Your order will not be submitted until you have completed both of the aforementioned steps.

2. The One Click Trading mode for order submission is a one-step process. Your order will be submitted when you:
- click either bid (SELL) or ask (BUY) rate buttons either:
  - on the Trading tab in the Market Watch window

☑ I Accept these Terms and Conditions   ①   OK   ②   Cancel

①   Click on ☐ to put a checkmark (✓) in the box if you accept the Terms and Conditions to use One Click Trading

②   Click **OK**

STEP 5   Click **OK** to complete
